America's Independent Truckers' Association, Inc was founded in 1997 with the idea that the owner operator and small to medium sized fleets deserved fleet pricing as much as, if not more than, the large fleets. AITA was started with the simple goal of developing a program that would level the playing field for smaller operations in an attempt to make them more profitable.

A simple goal grew into a program that has been serving small to medium sized fleets, among other heavy duty industries, for more than 20 years. AITA offers a variety of products, services, and information and is adding more opportunities for member savings each year. AITA and NAPA Auto Parts have been in partnership since the very beginning. The AITA NAPA programs offer great savings on quality products in a couple different ways. Below you can learn more about the AITA NAPA programs as well as how to sign up!
